Adobe Presenter Training Class

This Adobe Presenter training class teaches the use of this eLearning software application. Learn to take PowerPoint content and convert it to e-learning materials, as well as capture and record on-screen interactions and perform video editing to create eLearning content. Adobe Presenter is used by learning and training professionals and educators who need to create online educational content. This Adobe Presenter course teaches the process of creating e-learning from PowerPoint presentations, capturing on-screen content, editing on-screen presentations, as well as creating quizzes along with publishing content to Adobe Connect and learning management systems (LMS). This class can be coupled with Adobe Captivate training or Adobe Connect, or delivered as a stand-alone course.

Converting content from PowerPoint	Adding Presentation attachments
Creating quizzes	Using the Search pane
Using Smart Learning interactions	Using the Quiz pane
Using Actors	Integrated slide notes
Embedding a web browser interface	Shuffling question order in quizzes
Using Scenario templates	Managing File size
Understanding SCORM	Create video tutorials
Importing questions from an existing quiz	Customizing the background
Creating Slide branching	Adding multiple videos
Controlling slide navigation and titles	Adding In-video questions into the timeline
Captivate integration for simulations & demos	Using Annotations to highlight video sections
Creating question pools	Using video effects
Using Multilingual support	Closed Captioning - SRT file creation
Synchronizing multimedia to control playback	Using audio filters to improve audio quality
Using eLearning templates	Using automatic closed captioning
Importing and editing video	Adding Branding
Maintaining navigation restrictions	Integrating Adobe Connect for streaming media
Editing and syncing Audio	Publishing to Adobe Captivate Prime and LMSs
Adding animations	Publishing to YouTube & video sharing services
Creating Surveys	HTML5 publishing
Adding gesture support for tablets	e-learning Accessibility
Customizing the Presentation viewer	Publishing to Adobe Connect
Using Presentation viewer templates	Publishing to Adobe PDF
